

Garner is a simple plan addition that uses data science and incentive accounts to drive employees to the best-performing doctors.

Retain at-risk clients and expand your business by delivering guaranteed savings without changing networks or carriers.

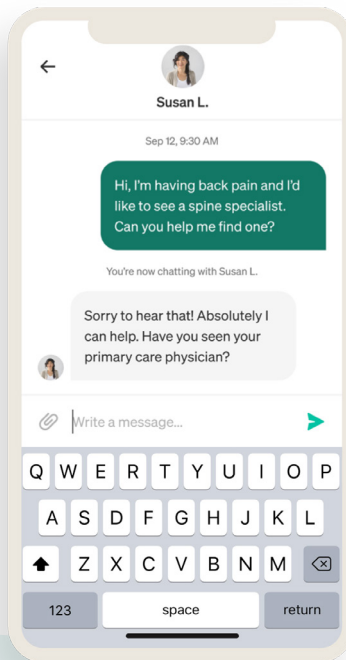

1 Garner measures doctor quality and efficiency more accurately than ever before.

We have assembled the largest multi-payer claims database in the country with more than 200 million patients. We use this dataset and over 500 individual metrics to measure the health and cost outcomes generated by doctors.

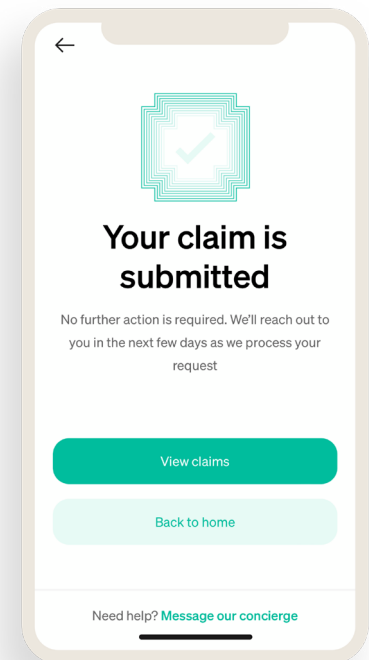

2 Our Concierge team and doctor search tool make it easier to find top-performing doctors who are in your existing network.

Employees can access our Concierge via phone, mobile and web for personal help finding a doctor and navigating the healthcare system.

3 Garner generates unparalleled engagement using innovative incentive accounts that pay employees' out-of-pocket medical bills.

When members see a top-performing doctor, our engagement-based HRA covers employee out-of-pocket medical bills, enriching your plan while generating savings.

- Works for both fully insured and self-funded employers
- Reduce employees' cost of care by an average of 27% per episode
- Get guaranteed 10-20% plan savings without cost-shifting
- 98% of employees have a positive experience with Garner
- Keep your existing network and carrier
