- **Action Needed: National Accounts should use the message below to copy/paste into an email to contact FI clients.**
- FYI, marketing will send an email to Local LG and SG employers on 2/7 with a reminder email 3/6

**SUBJECT:** We need your premium data for the 2024 RxDC submission by March 15

### **Important premium information needed for the 2024 Prescription Drug Data Collection submission**

We need your help collecting monthly average premium information required for Prescription Drug Data (RxDC) reporting. Please fill out [this form](#) to make sure we have the needed information.

The [Prescription Drug Data Collection reporting provision](#) of the Consolidated Appropriations Act (CAA) requires reports on drug utilization and spending trends be submitted to the U.S. Department of Health and Human Services.

As a reminder, starting in 2023, we are required to include information in the average monthly premium paid by member and by employer in the Premium and Life Years (D1) reporting.

To make sure your data is included in our aggregate filing for calendar year 2023 data, please complete [this form](#) before March 15, 2024. We must receive this data for you and us to avoid non-compliance.

If you have any questions, please let me know.
