

IMPORTANT CUSTOMER ACTION NEEDED: CAA Prescription Drug Data Collection (RxDC) Reporting

Under the Consolidated Appropriations Act (CAA), health insurers offering group or individual health coverage and self-funded group health plans are required to report data annually regarding prescription drugs and health care spending to the Departments of Health and Human Services, Labor, and Treasury (Tri-Agencies).

The required submission date to report 2022 data is June 1, 2023. This information must be submitted through a web portal set up by the Centers for Medicare & Medicaid Services (CMS).

By the June 1 Rx Data Collection (RxDC) deadline, UnitedHealthcare will be submitting the files for all customers who had active coverage during the 2022 reference year. Customers who had a Pharmacy Benefit Manager (PBM) other than the OptumRx integrated PBM, including OptumRx direct, the customer will need to work with that PBM to submit the D3-D8 files.

To support this initiative, UnitedHealthcare will be collecting data annually from each customer to complete the RxDC reporting.

As a UnitedHealthcare customer, **please complete the survey by the March 3 deadline.** This deadline is firm. Before completing the survey, you may wish to gather some data the survey will request including:

- Member and employer average premium,
- Administrative fees/TPA fees (if applicable)
- Medical, pharmacy, behavioral, and wellness vendors and their EIN (Employee Identification Number) if you have any vendors other than UnitedHealthcare.

Once you have gathered the required information, please go to CAARxDC [survey link](#) and enter the information.

If the survey response is not completed by March 3, UnitedHealthcare will submit the data in our system on or before June 1. However, the submission will not be complete. Data elements not provided to UnitedHealthcare will need to be submitted to CMS by the health plan or another reporting entity and the health plan accepts any risk arising from health plan's failure to provide any requested information to UnitedHealthcare for reporting.

If you have questions, please contact UnitedHealthcare sales representative.
